### HOW TO REPLY TO THIS NOTICE:

#### I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. ***Allowable Subject Matter***

The rejection over *Chambers* is hereby withdrawn because Applicants have perfected their priority claim.

In the Examiner's first Office action, the following observation had been made:

Applicant is advised that, for the purpose of evaluating the patentability of at least the more broadly-described claims against the prior art, a "vinylalkoxysiloxane" will be considered merely to be a siloxane polymer bearing both vinyl groups and alkoxy groups that are not necessarily on the same silicon atom. Likewise, an alkylalkoxysilane is interpreted as embracing those siloxane polymers having alkyl substituents and alkoxy substituents. This same treatment extends to all of the other combinations of polymers delineated in (b) through (f). Further, insofar as a polysiloxane can certainly have bonded thereto more than just two types of group, the disclosure of a polymer compound having all of the groups mentioned in any of the combinations (a) through (f) may be said to anticipate claim 1 and perhaps some of the dependent claims for which no additional structure is contemplated.

Subsequently, Applicant amended the claims to stipulate that the composition was "a mixture" of the pairs of compounds recited in (a) through (f). In the Examiner's October 14, 2008 correspondence, it was implied that the claims were being re-interpreted in view of Applicants' amendment such that underlined portion of the above passage no longer held true. After additional consideration, the Examiner has concluded that it is not the case that the "mixture" of, for instance, a vinylalkoxysiloxane and an alkylalkoxysiloxane need necessarily mean that these represent different polymers.

Art Unit: 1796

Having said that, it is clear from the record that this is Applicants' intent and, hence, **for the purpose of evaluating the claims against the prior art it has been presumed that each compound within the recited pairs of claim 1 is a compound distinct from the other.**

In the Examiner's survey both of the patent literature and the academic literature, more examples of polymers containing all of the functional groups of the aforementioned polymer pairs- see, for example, Ishikawa et al., JP 10-273559- were discovered but the Examiner was unable to locate any references that taught a composition containing polymer pairs having the prescribed substitution pattern. Accordingly, claims 1-18 are deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MARC S. ZIMMER whose telephone number is (571)272-1096. The examiner can normally be reached on Monday-Friday 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jim Seidleck can be reached on 571-272-1078. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
